

## Reverend Anthony W. Williams

Reverend Williams (Libertarian candidate for the Illinois Second Congressional District) is very passionate about reform and growth in the district. Rev. Williams also believes in empowerment through education and that we need to work to improve the current system. We also discussed why Congressman Jackson is supporting a third airport in the eleventh district. We need to create jobs here in the second district, where our constituents live and we need to represent and work for them. First and foremost, let us bring more jobs back into this district. Thank you, Reverend Williams, for your time in discussing issues that impact us all.
